

Relias E-Learning for Providers in Human Services

Relias provides online training to more than 10,000 companies and agencies across the continuum of care, including human services. We partner with industry leaders and subject matter experts to create courses that incorporate best practices and meet agencies' compliance, continuing education and workforce development needs.

Applied Behavior Analysis

- Prepares Registered Behavior Technicians™ for certification by providing learning on all requirements of the RBT® Task List 2.0 from the Behavior Analyst Certification Board®
- Provides continuing education for Board Certified Behavior Analysts® and Board Certified Assistant Behavior Analysts®
- Meets the requirements of the BACB's Supervisor Training Curriculum Outline 2.0

Intellectual and Developmental Disabilities

- Empowers direct support professionals to provide excellent person-centered services
- Covers activities of daily living, employment supports, behavior support, advanced medical needs and much more
- Trains front-line supervisors, qualified intellectual disability professionals and registered nurses on leadership and management

Special Education in Schools

- Trains staff on the development, implementation and documentation of Individualized Education Programs
- Explains federal regulations regarding the education of students with disabilities
- Provides education on inclusion in the classroom, transition planning and relationship building

Children, Youth and Families

- Covers parenting theory, behavior support, strategies for working with families and other topics
- Provides comprehensive training on child development, including developmentally appropriate activities and behavior management
- Educates professionals on developmental and mental health disorders of children and adolescents

Behavioral Health

- Provides extensive training on substance use disorders, suicide prevention and intervention, and serious mental illnesses
- Explains the behavioral health needs of children, adolescents and older adults
- Covers social determinants of health, trauma-informed care and integrated care

Community Health

- Covers topics such as ambulatory care, diabetes, integrated care and dental health
- Provides training on maternal health, pediatric health and ICD-10
- Includes public health courses on population health, nutrition, fall prevention and immunizations
